#### INDEPENDENT AUDITOR'S REPORT

To the Commissioner's Court Wilson County, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wilson County, Texas, as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Wilson County, Texas, as of September 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of funding progress for the Public Employees Retirement System, and budgetary comparison information on pages 3–10, 45, and 66–79 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wilson County, Texas' basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Financial Highlights

- The assets of Wilson County, Texas exceeded its liabilities at the close of the most recent fiscal year by \$17,582,049 (net position). Of this amount, \$7,003,674 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$314,473. This increase is attributable to an increase in property taxes of \$683,324, a decrease in operating grants of \$350,546, and careful budget management.
- As of the close of the current fiscal year, Wilson County, Texas' governmental funds reported combined ending fund balances of \$15,379,156 an increase of \$8,648,793 in comparison with the prior year. Approximately 31% of this total amount, \$4,834,642, is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the general fund was \$4,836,624, or 44 percent of total general fund expenditures and the total fund balance for the road and bridge fund was \$1,552,693, or 33 percent of total road and bridge fund expenditures.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Wilson County, Texas' basic financial statements. Wilson County, Texas' basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of Wilson County, Texas' finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Wilson County, Texas' assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Wilson County, Texas is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). The government-wide financial statements distinguish functions of Wilson County, Texas that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Wilson County, Texas include general administration, public safety, environmental protection, public transportation, health and welfare, public facilities, legal, elections, financial administration, conservation, capital projects, and culture and recreation.

The government-wide financial statements include only Wilson County, Texas itself (known as the primary government). The government-wide financial statements can be found on pages 11-12 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Wilson County, Texas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Wilson County, Texas are governmental funds.

#### Governmental funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Wilson County, Texas maintains thirty-eight (38) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the road and bridge funds, the courthouse restoration fund, and the recording fees fund all of which are considered to be major funds. Data from the other thirty-four (34) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Wilson County, Texas adopts an annual appropriated budget for its general fund and the road and bridge funds, and all the other applicable special revenue, debt service, and capital project funds.

The basic governmental fund financial statements can be found on pages 13-23 of this report.

#### Proprietary funds:

Wilson County, Texas maintains no type of proprietary fund.

#### Notes to the financial statements:

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-44 of this report.

#### Other information:

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Wilson County, Texas' progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 45 of this report.

The combining statements referred to earlier in connection with major road and bridge funds, the non-major governmental funds, and the agency funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 46-65 of this report. The budget comparison schedules in connection with the non-major governmental funds can be found on pages 66-79 of this report.

#### Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Wilson County, Texas, assets exceeded liabilities by \$17,582,049 at the close of the most recent fiscal year.

A significant portion of Wilson County, Texas' net position (48 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, infrastructure, and equipment), less any related debt used to acquire those assets that is still outstanding. Wilson County, Texas uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Wilson County, Texas' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of Wilson County, Texas' net position (12 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$7,003,674) may be used to meet the governments on going obligations to citizens and creditors. At the end of the current fiscal year, Wilson County, Texas reported a positive balance in all three parts of the governmental activities net position. For the prior fiscal year, Wilson County, Texas reported a positive balance in all three parts of the governmental activities net position.

#### Governmental activities:

Governmental activities increased Wilson County, Texas' net position by \$314,473, thereby accounting for 100 percent of the total increase in the net position of Wilson County, Texas. This increase is attributable to an increase in property taxes of \$683,324, a decrease in operating grants of \$350,546, and careful budget management.

Financial Analysis of the Government's Funds

As noted earlier, Wilson County, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental funds:

The focus of Wilson County, Texas' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Wilson County, Texas' financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Wilson County, Texas' governmental funds reported combined ending fund balances of \$15,379,156, an increase of \$8,648,793 in comparison with the prior year. Approximately 31 percent of this total amount, \$4,834,642, constitutes unassigned fund balance, which is available for spending at the government's discretion. The remaining amount is either restricted or committed.

The general fund is the chief operating fund of Wilson County, Texas. At the end of the current fiscal year, unassigned fund balance of the general fund was \$4,836,624, while total fund balance reached \$4,836,624. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 44 percent of total general fund expenditures, while total fund balance represents 44 percent of that same amount. The fund balance of Wilson County, Texas' general fund increased by \$730,391 during the current fiscal year. This increase is attributable to an increase in property taxes of \$553,193 and careful budget management.

At the end of the current fiscal year, restricted fund balance of the road and bridge was \$1,552,693, while total fund balance reached \$1,552,693. As a measure of the road and bridge's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Restricted fund balance represents 33 percent of total road and bridge expenditures, while total fund balance represents 33 percent of that same amount. The fund balance of Wilson County, Texas' road and bridge decreased by \$251,722 during the current fiscal year. This decrease is attributable to an increase in expenditures of \$774,583 less capital leases of \$328,298.

There is no analysis of the courthouse restoration fund because it is a construction fund. There is no analysis of the recording fees fund because it is custodial in nature and the activity is immaterial.

#### General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were an increase of \$60,572 for the general fund. This increase is immaterial. Overall, actual expenditures of \$10,836,648 were less than the budgeted expenditures of \$11,263,604 by \$426,956.

#### Capital Asset and Debt Administration

#### Capital assets:

Wilson County, Texas' investment in capital assets for its governmental activities as of September 30, 2014, amounts to \$6,195,049 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, and infrastructure items such as roads, highways, and bridges. The total increase in Wilson County, Texas' investment in capital assets for the current fiscal year was 3 percent.

The County is currently restoring the County Courthouse.

Additional information on Wilson County, Texas' capital assets can be found in note IV C on page 38 of this report.

#### Long-term debt:

At the end of the current fiscal year, Wilson County, Texas had no bonded debt outstanding.

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year	Due After One Year
Governmental Activities: General Obligation Bonds	\$0	\$8,215,000	\$0	\$8,215,000	\$165,000	\$8,050,000
-	0	8,215,000	0	8,215,000	165,000	8,050,000
Grand Total	\$0	\$8,215,000	\$0	\$8,215,000	\$165,000	\$8,050,000

Wilson County, Texas' total bonded debt increased by \$8,215,000 during the current fiscal year. The key factor in this increase was the issuance of Series 2014 Bonds.

Additional information on Wilson County, Texas' long term debt can be found in note IV F on pages 38-39 of this report.

State statutes limit the amount of general obligation debt a governmental entity may issue to 25 percent of its total assessed valuation. The current debt limitation for Wilson County, Texas is \$603,803,781, which is significantly in excess of Wilson County, Texas' outstanding general obligation debt.

#### Economic Factors

The County is experiencing significant growth from fees, sales taxes and ad valorem taxes due to the advent of the Eagle Ford, Pearsall Oil and Gas Shale.

#### Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the County's finances and to demonstrate the county's accountability for the funds it receives. If questions are encountered regarding this report, contact the Wilson County Auditor's Office, 2 Library Lane, Suite 2, Floresville, TX 78114, or (830) 393-7304.

EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED SEPTEMBER 30, 2014

Net Changes in Fund Balances - total governmental funds	\$8,648,793
Amounts reported for governmental activities in the statement of net position ("SNA") are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives	
and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	262,231
Other Long-Term Assets are not available to pay for current period	70,000
expenditures and, therefore, are deferred in the funds. This is the change in these amounts this year.	76,989
(Increase) decrease in Compensated Absences from beginning of period to end of period.	3,072
(Increase) decrease in Accrued Interest Payable from beginning of period to end of period.	(96,837)
Certain Property Tax Revenues are deferred in the funds. This is the change in these amounts this year.	(54,567)
Increase in loan principal are receipts in the funds but not revenue in the SOA.	(8,543,298)
Increase in bond issuance premium are receipts in the funds but not revenue in the SOA.	(285,000)
Repayment of loan principal is an expenditure in the funds but not an expense in the SOA.	303,090
Change in net position of governmental activities - statement of activities	\$314,473

#### WILSON COUNTY, TEXAS NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2014

#### I. Summary of Significant Accounting Policies

#### A. Reporting entity

Wilson County operates under a County Judge – Commissioners' Court type of government and provides the following services throughout the County: public safety (fire, ambulance, and law enforcement), public transportation (highways and roads), health and welfare, culture and recreation, conservation (agriculture), public facilities, judicial and legal, election functions, and general and financial administrative services. The accounting policies of Wilson County, Texas, (the County) conform to generally accepted accounting principles. The County also applies all relevant Government Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant policies.

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The accounting policies of Wilson County, Texas, (the County) conform to generally accepted accounting principles generally accepted in the United States of America. The County also applies all relevant Government Accounting Standards Board (GASB) pronouncements.

#### B. Government-Wide and Fund Financial Statements

The County's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental Activities for the County accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the County are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated.

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the Net Position and changes in Net Position presented in the Government-Wide financial statements. The County has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. (The County's deferred outflows of resources and deferred inflows of resources are noncurrent.) The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the County, are franchise taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The unit road fund accounts for the activities of the government's road and bridge operations.

The courthouse restoration fund is used to restore the Courthouse.

The recording fees fund is used for future book restoration.

C. Fiduciary fund financial statements include a Statement of Net Position. The County's fiduciary funds are Agency Funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on a spending or "economic resources" measurement focus and the accrual basis of accounting as are the proprietary funds explained above.

#### D. Assets, Liabilities, and Net position or Equity

#### 1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Government and the District to invest in obligations of the U.S. Treasury. Investments for the Government are reported at fair value.

#### 2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to a total of 1 percent of the current outstanding property taxes at September 30, 2014 and 10 percent of the delinquent outstanding property taxes at September 30, 2014.

Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review and judicial review. Traditionally, property taxes are levied October 1, of the year in which assessed or as soon thereafter as practicable. Taxes are due and payable when levied since that is when the County bills the taxpayers. The County begins to collect the taxes as soon as the taxpayers are billed.

#### 3. Inventories and Prepaid Items

Inventories of governmental funds are recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. There were no prepaid items at September 30, 2014.

#### Restricted Assets

There were no restricted assets at September 30, 2014.

#### 5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The County is currently restoring the County Courthouse.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

	Years
Buildings	50
Building Improvements	20
System Infrastructure	30
Vehicles	5
Office Equipment	5
Computer Equipment	5

#### 6. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in government-wide financial statements.

# 7. Long-Term Obligations

In the government-wide financial statements in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs and loss on refunding, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs and loss on refunding are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# 8. Fund Balances – Governmental Funds

As of September 30, 2014, fund balances of the governmental funds are classified as follows:

Restricted — This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants. Infrastructure Projects are restricted by State Statute and County laws and are legally segregated for funding of infrastructure improvements.

**Committed** — This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Commissioners' Court. These amounts cannot be used for any other purpose unless the Commissioners' Court removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed.

Unassigned — all other spendable amounts.

As of September 30, 2014, fund balances are composed of the following:

Fund Balances:	
Restricted	
Construction	\$8,166,197
General Administration	15,831
Debt Service	96,861
Health	37,422
Judicial	42,549
Public Safety	395,381
Public Transportation	1,560,501
Committed	, ,
Culture and Recreation	185,573
General Administration	44,199
Unassigned	4,834,642
Total Fund Balance	\$15,379,156

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Commissioners' Court or the finance committee has provided otherwise in its commitment or assignment actions.

In fiscal year 2011, the Commissioners' Court adopted a minimum fund balance policy for the General Fund. The policy requires the unassigned fund balance at fiscal year end to be at least equal to 25 to 40 percent of the subsequent year's budgeted General Fund expenditures.

#### 9. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### 10. Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

#### New Pronouncements

In June 2011, the GASB issued Statement No. 65, ITEMS PREVIOUSLY REPORTED AS ASSETS AND LIABILITIES. GASBS No. 65 changes the reporting for bond issuance costs from capitalization and amortization to expensing in the current year. This Statement is effective for periods beginning after December 15, 2012. The adoption of GASBS No. 65 will have the effect of restating the beginning Net Position at the beginning of the year ended September 30, 2014. In subsequent years the costs will be expensed currently rather than being capitalized and amortized.

- II. Reconciliation of Government-Wide and Fund Financial Statements
  - A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$9,177,148 difference are as follows:

Bonds Payable	\$8,215,000
Bond Premium	285,000
Capital Leases Payable	431,416
Accrued Interest Payable	96,837
Compensated Absences	148,895
	\$9,177,148

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds" report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$9,195,049 difference are as follows:

Capital Assets Not Being Depreciated	\$1,471,366
Capital Assets Being Depreciated	19,845,108
Accumulated Depreciation	(12,121,425)

Net Adjustment to Increase Net Changes in Fund Balances - Total Governmental Funds to Arrive at Changes in Net Assets of

Governmental Activities \$9,195,049

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position. (Continued)

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds (net of allowance for uncollectibles)." The details of this \$1,805,106 difference are as follows:

Property Taxes Receivable	\$1,963,960
Allowance for Doubtful Accounts	(158,854)
Net	\$1,805,106

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds." The details of this \$379,886 difference are as follows:

Fines Receivable	\$2,966,051
Allowance for Doubtful Accounts	(2,586,165)
Net	\$379,886

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities. The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$262,331 difference are as follows:

Capital Outlay - Additions - Not Being Depreciated Capital Outlay - Additions - Being Depreciated Capital Outlay - Deletions - Net Depreciation Expense	\$396,394 773,898 (42,925) (865,136)

# III. Stewardship, Compliance, and Accountability

# A. Budgetary Information

The original budget is adopted by the Commissioners' Court and filed with the County Clerk. Amendments are made during the year on approval by the Commissioners' Court.

The final amended budget is used in this report.

The budget should not be exceeded in any expenditure category under State law. Unused appropriations lapse at the end of each year.

The County Judge is, by statute, the Budget Officer of the County. He usually requests and relies on the assistance of the County Auditor to prepare the annual budget. After being furnished budget guidelines by the Commissioners' Court, the County Auditor prepares an estimate of revenues and a compilation of requested departmental expenditures and submits this data to the Commissioners' Court.

The Commissioners' Court invites various department heads to appear for a hearing concerning the departments' budget requests. Before determining the final budget, the Commissioners' Court may increase or decrease the amounts requested by the various departments. Amounts finally budgeted may not exceed the County Auditor's estimate of revenues and available cash. The final budget can be legally amended by the Commissioners' Court to whatever extent the Court desires as long as the amended figures do not exceed the County Auditor's estimate of revenues and available cash.

When the Budget has been adopted by the Commissioners' Court, the County Auditor is responsible for monitoring the expenditures of the various departments of the County to prevent expenditures from exceeding budgeted appropriations and for keeping the members of the Commissioners' Court advised of the condition of the various funds and accounts. The level of control for each legally adopted annual operating budget is the fund.

Budgets for all budgeted General, Road and Bridge, and most special Revenue Funds are adopted on a budgetary basis which is not in conformity with generally accepted accounting principles (GAAP). Budgets for the 2014 fiscal year were adopted for the General Fund, the Road and Bridge Funds, and other applicable non-major governmental funds.

#### B. Excess of Expenditures over Appropriations

Expenditures exceeded appropriations for the year ended September 30, 2014 for the following: in the Road and Bridge No. 3 fund whereby expenditures of \$1,034,544 exceeded appropriations by \$19,597, the Estray Fund whereby expenditures of \$20,207 exceeded appropriations by \$7,172, the Inmate Telephone Prepayment fund whereby expenditures of \$42,453 exceeded appropriations by \$460, the Jury fund whereby expenditures of \$15,834 exceeded appropriations by \$81, the LOESE fund whereby expenditures of \$4,146 exceeded appropriations by \$2,146, the Library fund whereby expenditures of \$348,046 exceeded appropriations by \$3,993, the Recording Fees fund whereby expenditures of \$70,019 exceeded appropriations by \$12,208, and the Subdivision fund whereby expenditures of \$23,244 exceeded appropriations by \$3,832.

#### C. Deficit fund equity

The county had no deficit fund balances as of September 30, 2014 except for the following: Errors and Omissions fund - \$1,700 and the Jail Bond t&S Fund - \$282. These deficits are expected to be liquidated by future resources of the funds.

#### IV. Detailed Notes on All Funds

# A. Deposits and Investments

Legal and Contractual Provisions Governing Deposits and Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the County to have independent auditors perform test procedures related to investment practices as provided by the Act. The County is in compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments:

The County has adopted a deposit and investment policy and the county addresses the following risks:

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government has a deposit policy for custodial credit risk. As of September 30, 2014, the government's bank balance of \$3,518,719 was not exposed to custodial credit risk because it was fully insured by the U.S. Government and/or the State of Texas and/or is collateralized with securities held by the pledging financial institution's trust department or agent, in the government's name. The fair market value of the securities pledged is \$10,997,486 and the FDIC coverage is \$341,483. The book amount of the cash at September 30, 2014 is \$1,312,700.

Interest rate risk: In accordance with its investment policy, the government manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than twelve months.

Credit risk: State law limits investments in commercial paper and corporate bonds to the top two rating issued by nationally recognized statistical rating organizations (NRSROs). It is the government's policy to limit its investments in these investment types to the top rating issued by NRSROs. As of September 30, 2014 the local investment pool - Texpool (47% of portfolio) was rated AAAm by Standard and Poor's and Texas Class (53% of portfolio) was rated AAAm by Standard and Poor's.

Concentration of credit risk: The County places no limit on the amount the County may invest in any one issuer. 47 percent of the County's investments are in Texpool and 53 percent of the County's investments are in Texas Class.

Custodial credit risk – investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of September 30, 2014, the government had the following investments:

Investment Type	<u>Fair Value</u>	Maturity (Years)	Weighted Average
Texpool	\$6,842,772	Less than 1 year	Less than 1 year
Texas Class	\$7,731,598	Less than 1 year	Less than 1 year

The County participates in two Local Government Investment Pools: TexPool and Texas Class. The County invests in TexPool and Texas Class to provide its liquidity needs. It is a local government investment pool established in conformity with the Inter-local Cooperation Act Chapter 791 of the Texas Government Code and the Public Investment Act Chapter 2256 of the Code. TexPool and Texas Class are a 2(a) 7 like funds meaning that they are structured similar to a money market mutual fund. Such funds allow shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are adjusted daily and the fund seeks to maintain a constant net asset value of \$1.00, although this cannot be guaranteed. The County considers the holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder short of a significant change in value. The TexPool and Texas Class funds are within the Governmental Activities.

#### B. Receivables

Receivables as of year end for the government's individual major funds and non-major, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

		Road		Other

#### E. Leases

#### Operating Leases

The government leases equipment under non-cancelable operating leases. Total costs for such leases were \$4,386 for the year ended September 30, 2014. The future minimum lease payments for these leases are as follows:

Year Ending Sep. 30,	<u>Amount</u>
2015	\$ 2,724
2016	2,724
2017	2,724
2018	1,135
Total	\$ 9.307

# F. Long-Term Debt

#### Capital Leases

The government has entered into lease agreements as lessee for financing a Volvo Wheel Loader, a John Deere Tractor, and a Caterpillar Compactor for Precinct No. 2; a Volvo Roller, an Asphalt Ripper, and a Volvo Backhoe Loader for Precinct No. 3; and a Volvo Motor Grader and a Wheel Loader for Precinct No. 4. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The debt service for the Volvo Wheel Loader, the John Deere Tractor, and the Caterpillar Compactor is Precinct No. 2; the Volvo Roller, an Asphalt Ripper, and a Volvo Backhoe Loader is Precinct No. 3; and the Volvo Motor Grader and the Wheel Loader is Precinct No. 4.

The assets acquired through capital leases are capitalized into capital assets as follows:

VOLVO
SPHALT MOTOR WHEEL
RIPPER GRADER LOADER
PCT. 4 PCT. 4 TOTAL
\$105,000 \$130,056 \$82,050 \$759,883

LESS: AMOUNT REPRESENTING INTEREST	17,909	17,909
PRESENT VALUE OF NET MINIMUM LEASE PAYMENTS	\$431,416	\$431,416

#### **Bonds**

The government issues Bonds to provide funds for the courthouse renovation Series 2014 in the amount of \$8,215,000. The bond premium was \$285,000. The bond premium will be amortized over the life of the bond. The bonds are direct obligations and pledge the full faith and credit of the government.

Bonds currently outstanding are as follows:

Purpose	<u>Rates</u>	<u>Amount</u>
Bonds - Series 2014	2.00% to 4.00%	8,215,000

The following is a summary of debt service requirements to maturity.

Year Ending	Governmental Activities

The above are serviced by the debt service fund established for the purpose of servicing the bonded debt. The capital leases are serviced by the road and bridge funds. The compensated absences are funded by the general and road and bridge funds.

The government-wide statement of activities includes \$489,904 as "noncurrent liabilities, due within one year".

#### V. Other Information

#### A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation).

Changes in accrued liabilities for these claims follow:

	Year ended 09/30/14	Year ended 09/30/13	
Unpaid Claims, Beginning of Fiscal Year Incurred Claims (including IBNRs)	\$ -0- -0-	\$ -0- -0-	
Claim Payments Unpaid Claims, End of Fiscal Year	<u>-0-</u> \$ -0-	<u>-0-</u> \$ -0-	

#### 1. General Liability Insurance

The County is insured for general, police officers and automobile liability.

The County has joined together with other governments in the Texas Association of Counties Risk Management Pool. The County pays an annual premium to Risk Management for auto vehicle insurance coverage. The agreement with Risk Management provides that Risk Management will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$100,000 to \$300,000 for each insurance event. The County anticipates no contingent losses.

Texas Association of Counties Risk Management Pool has published its own financial report that can be obtained from the Texas Association of Counties Risk Management Pool.

The County continues to carries commercial fidelity bonds for elected officials and for management.

#### 2. Property and Casualty Insurance

Property, casualty, mobile equipment insurance is provided by Texas Association of Counties Risk Management Pool.

#### 3. Workers' Compensation Insurance

The County insures against workers' compensation claims through Texas Association of Counties Risk Management Pool.

#### 4. Group Health and Life Insurance

The County maintains a group health insurance plan for active employees and their eligible dependents. Costs are recorded in the fund from which the employees' compensation is paid.

# 5. Unemployment Compensation Insurance

The County insures for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC).

# B. Related Party Transaction

The District Clerk's husband performs services for the County. The County paid him \$33,591 during the year. There were no amounts due at year end by the County to the husband or from the husband to the County.

# C. Subsequent Events

There were no subsequent events requiring disclosure.

# D. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The County was not a defendant at year's end.

# E. Other Post Employment Benefits

#### Health Care Benefits - Retirees

Wilson County offers its retired employees the option of continuing their health coverage at County cost until the retired employee receives Medicare. The average monthly cost is \$500 and the County currently has 5 people participating in this plan. The County estimates that the plan will contain approximately 5 to 6 people participating at any one time and the average number of years remaining for the current participants until they receive Medicare is 3 years. The expense amount to the County is considered immaterial and thus is not included in the County-wide financial statements either as an expense or as a liability.

#### F. Retirement Plan

#### Plan Description

The County provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 656 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

#### **Funding Policy**

The employer has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually.

The governing body elected to pay a rate of 9.24% for the 2014 and 8.90% for the 2013 year that did not exceed the actuarially determined rate as allowed by the provisions of the TCDRS Act.

The contribution rate payable by the employee members for calendar years 2013 and 2014 is the rate of 7% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

# G. Prior Period Adjustments

The County has determined that certain transactions were recorded incorrectly in a prior year.

Governmental Activities: In the Government-Wide statements, the construction in progress for the courthouse renovation was not included in the capital assets at September 30, 2013 an thus the beginning balance is being restated to include \$588,892 in construction in progress. This restatement had a corresponding effect on change in net assets.
